## To the Honourable the Speaker and Members of the Legislative Assembly of N S W.

The Petition of citizens of Parramatta, greater western Sydney and elsewhere brings to the attention of the House the proposed alienation and loss of public lands and built environment, especially (but not limited to) the destruction of Parramatta War Memorial Swimming Pool and the Cumberland Hospital Heritage Site (also known as the Fleet Street Heritage Precinct) including the Colonial Parramatta Female Factory and many other Colonial and post-Colonial buildings.

The undersigned petitioners therefore ask the Legislative Assembly to legislate to prevent the State Government from (a) allowing the destruction of the Parramatta War Memorial Swimming Pool and (b) allowing any subdivision of, and/or construction of apartment buildings within, the Cumberland Hospital Heritage Site between Fleet Street and the Parramatta River.
